DIALIGHT INDUSTRIAL AND HAZARDOUS AREA LED LIGHTING

Dialight is the world leader in LED industrial lighting technology with over 1 million LED fixtures installed worldwide

The background of the slide is a collage of industrial lighting scenes. On the left, there's a close-up of warm-toned LED lights in a warehouse. On the right, there's a wider shot of a large industrial facility with a high ceiling, featuring bright, modern LED lighting fixtures and stacks of goods in the background.

VISION:

We see a world where heavy industry is transformed to be safer, more productive and environmentally friendly through illumination. Dialight will be a pioneer of change for the industrial world; advancing the performance standards of industrial LED technology; using light fixtures in new and connected ways; and creating networks that deliver data-driven insights.

MISSION:

Our purpose is to improve the world we live in through sustainable, energy efficient and intelligent LED lighting technologies. We enable industrial customers operating in demanding environments to reduce their energy costs, maintenance costs, and carbon footprint while maximizing the safety and productivity of their facilities.

At Dialight, we specialise in rugged, cutting-edge industrial and hazardous area LED lighting

On when it counts.

On when it counts.

On when it counts.

On when it counts.

On when it counts.

On when it counts.
